EDUCATION

2018-2022
ANNA UNIVERSITY

- **Bachelor of Technology in Computer Science - 85%**

2016-2018
KERALA BOARD

- **Computer Science and information Technology - 94%**

TECHNICAL SKILLS

- React.js & Next.js
- JavaScript & TypeScript
- Components & Atomic Architectures
- Tailwind CSS, Bootstrap & Ant Design
- Responsive Design
- Node.js & Python
- MongoDB & MySQL
- Parse Server & REST APIs
- Redux & Zustand
- Git & GitHub
- Deployment & CI/CD

PROFILE

Full Stack Developer with 3 years' experience, including 2 years in MERN and 1 year in frontend development. Proficient in React.js, Node.js, Express, MongoDB, Next.js, Zustand, Redux, TanStack, and Ant Design, applying Atomic Design principles to deliver 8+ scalable, high-performance, and SEO-friendly projects. Experienced in driving timely delivery through Jira sprints. Adept at managing multiple tasks in fast-paced environments while ensuring code quality, maintainability, and optimal user experience.

WORK EXPERIENCE

Diffrenz Business Solutions , InfoPark   **NOV 2022 - PRESENT**
Frontend Developer

- Built scalable web applications using React.js, Next.js, and TypeScript with a strong focus on performance, responsiveness, and maintainability.
- Developed Cariva.com (UAE) from Figma to production, implementing 3D car view, WhatsApp login, and 100% SEO optimization, leveraging TanStack Query and Zustand in Jira sprints.
- Engineered OrderPro for PVS Chemicals (Belgium), increasing order handling capacity from 7 to 28/day by integrating PDF generation, email automation, and Dockerized deployments.
- Optimized API integrations and state management across multiple projects using TanStack Query, Zustand, reducing load times and enhancing user experience.
- **Tech Stack**: Next.js, React.js, TypeScript, Ant Design, TanStack Query, Zustand, Atomic Architecture, Jira, Tailwind CSS, React PDF, Docker

Caliczbee solutions pvt ltd, UL CyberPark   **SEPT 2022 - AUG 2024**
MERN Stack Developer

- Full Stack Developer at Pillsbee, delivering end-to-end solutions for web applications and internal systems in a fast-paced startup environment.
- Built scalable backend services using Node.js and Parse Cloud Functions while simultaneously developing dynamic frontend interfaces with React.js, Bootstrap, and Tailwind CSS.
- Implemented Layered Design principles for modular, maintainable UI components and efficient state management using Redux.
- Delivered key business features, including payment workflow optimization, internal dashboards, and operational tools, enhancing efficiency and user experience.
- Managed multiple tasks concurrently, thriving in a multitasking startup environment and consistently delivering high-impact results.
- Optimized full-stack application performance and maintainability, ensuring scalable and reliable solutions across all layers of the stack.
- **Tech Stack**: MERN Stack Parse Cloud Functions, Bootstrap, Tailwind CSS, Redux, Layered Architecture, ERP Modules, Jira

SKILLS

- Project Management
- Public Relations
- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

LANGUAGES

- English (Fluent)
- Malayalam (Fluent)
- Hindi (Basics)
- Tamil (Intermediate)

INTERESTS

- **Books**
- Photography
- Travel

PERSONAL DOSSER

- Gender: Male
- Date of Birth: 29-03-2001
- Nationality: Indian
- Marital Status: Unmarried

PASSPORT INFO

- Passport Number:
- Date of Issue: 25-03-2024
- Date of Expiry: 05-07-2032
- Place of Issue: Cochin

PROJECT DETAILS

- Project : **CARIVA(UAE)**
- Description : Built a fully responsive car trading platform from scratch using React.js, TypeScript, and Tailwind CSS, transforming Figma designs into pixel-perfect UI. Achieved 100% SEO score and ensured optimal performance across devices. Integrated advanced features like 3D car view (react-image-turntable), WhatsApp OAuth login, and end-to-end buy/sell workflows.
- Utilized TanStack Query for efficient data handling, Zustand for global state management, and custom hooks for clean, reusable logic. Delivered 35+ REST API integrations with sub-200ms latency. Worked in Agile sprints using Jira, contributing to 10+ production feature deployments.

- Project : **ORDER PRO (PVS Chemicals, Belgium)**
- Description : Developed ORDERPRO, a custom POS solution to streamline bulk sales order creation for PVS Chemicals. Achieved a 4x improvement in daily order capacity (from 7 to 28 orders/day) by introducing features like multi-order PDF generation, bulk email dispatch, and fast inline form entry.
- Utilized jsPDF, html2canvas, and pdf-lib for dynamic PDF exports. Integrated cloud services like Azure, AWS, and Docker for deployment and scalability. Project followed a component-driven architecture with optimized builds using Vite, ensuring high performance and maintainability.

- Project : **TEQ.QA**
- Description : This project developed a responsive website using Bootstrap 5, HTML5, CSS3, and JavaScript ES6, ensuring a modern, mobile-first design. The site achieves over 90% cross-browser compatibility and is hosted on Vercel, enabling fast deployment with under 200ms load times and seamless CI/CD integration.

- Project : **PORTFOLIO WEBSITE**
- Description : Developed a 3D interactive portfolio using React.js, Three.js, HTML, CSS, and SASS to showcase my skills, projects, and experience as a software developer. The portfolio features a fully responsive design, smooth animations, and a built-in contact form. Deployed on Vercel for fast and reliable hosting.

INTERNSHIPS / WORKSHOPS

- Completed a Python Internship at Pyspiders, Bangalore.
- Completed a comprehensive Python Django course from Avodha.
- Earned the Google Digital Marketing Certification.
- Completed a Python Internship at KELTRON.
- Finished the "MySQL for Data Analysis" course.
- Completed a Web Designing Internship at KELTRON.
- Completed multiple Azure-focused courses on Udemy.

DECLARATION

I hereby declare that the above-mentioned information is true and I bear the responsibility for the correctness of the above mentioned particulars.
