Welcome to the company premises of PVS Chemical Belgium N.V.

Please read the following regulations carefully before starting the loading or unloading operations. See also map on reverse.

Personal protection

Wearing a safety helmet, tightly fitting safety goggles, safety shoes and a fluorescent jacket are compulsory when entering the site.

In addition, wearing a splash guard, chemically resistant sealed clothes and chemically resistant gloves is compulsory during loading and unloading operations.

Smoking and flames prohibited

Smoking, making fire and working with an open flame is prohibited anywhere on the factory premises (including inside vehicles).

Duty to report

Drivers are under no circumstances allowed to walk unattended around PVS company premises.

You must first report at the reception desk.

Transportation within plant premises

Belgian traffic regulations apply on the plant premises.

The speed limit is 20 km/h.

Always give way to railway vehicles. Train tracks must remain free at all times.

Internal transportation: Give way to fork lifts & pedestrians!!

Maximum height to pipe bridges:

Parking under pipe bridges prohibited.

Keep passageways and access to intervention and safety resources clear.

General rules

Bringing in, or being under the influence of, drugs or alcoholic beverages within the plant is prohibited.

Filming or taking photographs prohibited.

It is strictly forbidden to use a cell phone, driving any kind of

transport means. A cell phone can only be used for professional reasons.

Climbing on top of a lorry without fall protection is prohibited. Tank staircases and other resources are available for this purpose.

During loading of bulk trucks, drivers need to put away their contact keys in the provided red key boxes as well as to place a wheel chock.

Lorry drivers must stay with the vehicle during loading and unloading operations.

It is forbidden to vent air after discharge.

It is also forbidden to clean the vehicle after discharge.

Company areas are accessible to authorized persons only.

Liability

PVS shall not be liable for any material and/or personal damages or theft, except in case of proven error or negligence.

Non-compliance to our safety regulations may result in sanctions by management.

FIRST AID

Contact with our products may cause serious chemical burns. Loading and unloading bays are therefore equipped with emergency showers and eyewash stations. See map on reverse.

Immediately notify the person in charge of loading or unloading if you feel unwell or have hurt yourself.
